Aurora Homes

*Helios 3 Br x3 Ba | Selene 3 Br x 3 Ba
| Artemis 2 Br x 2 Ba
Available Now From \$1 Million+*

BUILT DIFFERENTLY:

Trilith's most efficient homes designed to date., Aurora's homes are scheduled to be carbon-neutral.

ENERGY EFFICIENT UTILITIES:

Each home will be equipped with Energy Star appliances. These appliances help you save energy and costs on your utility bill without sacrificing performance.

GEOHERMAL:

Geothermal energy is used to heat and cool your home and is recognized by the United States Environmental Protection Agency as the most environmentally friendly, cost effective and energy efficient heating and cooling technology available.

SOLAR SYSTEM:

A solar panel system and coinciding battery pack will help power your home while providing you with clean energy, lower utility bills, all while being environmentally responsible.

BATTERY SYSTEM:

Each home will take advantage of on-site emission free, renewable energy produced from the solar canopy. The battery in the home can store this emission free, renewable energy from both the electrical grid and the solar array system. These green-built homes can save homeowners more than 70% in energy costs every month compared to similar homes in Atlanta.

PARKING & CHARGING STATIONS:

All homes will be equipped with Charging stations at their designated parking. Additionally, we are partnering with Coweta-Fayette EMC to ensure guest parking has charging stations available.

Sales Office:

*590 Heatherden Avenue,
Fayetteville, GA 30214*
